## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Feature | Description                                    | Rating |
|---------|--|--------|
| Wall    | Solid brick, as built, no insulation (assumed) | Poor   |
| Wall    | Cavity wall, as built, insulated (assumed)     | Good   |
| Roof    | Pitched, 200 mm loft insulation                | Good   |
| Roof    | Pitched, insulated                             | Good   |
