

The Agent's Perspective...

"Altona Manor must be one of the most often enquired about and most admired apartment developments in Holywood. The proximity to the town, the exterior appearance and the finish of the building are no doubt elements that assist in this appeal.

This first floor apartment is at the front of the building and enjoys views of Church Road and the entrance to the front, with views into the church grounds to the side from the tall 'French' doors and balcony.

There is a sizable living and dining space, separate kitchen, utility room, bathroom and two bedrooms one of which is ensuite.

Being a managed environment, this is a real opportunity for those downsizing wishing to take things a little easier, or wanting to spend more time abroad knowing that the apartment is being well looked after.

We have no doubt this lovely apartment will attract good interest so early viewing is strongly recommended"

Additional information

In accordance with the European Performance of Buildings Directive, all property being marketed For Sale or To Rent must have an Energy Performance Certificate (EPC). The rating establishes the efficiency of a property and what steps could be undertaken to improve its performance in an effort to reduce energy consumption and associated carbon dioxide emissions. There is no 'pass' or 'fail' level.

An EPC currently has a 'life' of 10 years and becomes part of the documents associated with that property. It can be transferred on completion of sale to the new owner(s) and would normally only be superseded by a new assessment after energy saving improvements have been carried out.

A copy of the EPC and Recommendation Report must be available to any interested party. The full Report can be viewed via our web site rodgersandbrowne.co.uk.

ENERGY EFFICIENCY RATING (EPC)

Score	Energy rating	Current	Potential
